👤 PROFILE

Versatile Full Stack Web Developer using Ruby on Rails, JavaScript, Node.js, React, among other technologies. I consider myself a very curious DIY person, a fast learner and adaptable to anything that my day-to-day requires, with a particular focus on pushing my teammates to learn from each other. Currently looking to relocate to Europe.

📁 EMPLOYMENT HISTORY

Fullstack Developer at Onlife, Buenos Aires

February 2021 — Present

Full Stack Developer. Designed and developed 10+ applications using a MERN stack (MongoDB, Express.js, React.js and Node.js) for various external clients. Also maintained and developed in-house digital event platforms based on PHP and an eCommerce hybrid on a MERN stack. Agile methodologies champion for a transition to a Scrum framework and Agile work ethic.

Automation Operations Associate at Accenture, Buenos Aires

April 2016 — February 2021

Internal Automation & Innovation team lead for an external client. Worked daily with VBA, Automation Anywhere and SAP FI. Included responsibilities as an AP, P2P and Buy Desk agent.
